NOTES

1. This movement document meets the reporting requirements;
 - of the Disease Control (England) Order 2003 (DCO);
 - of Articles 14 (3) and 6(7) of the Welfare of Animals (Transport) Order 1997 (WATO), as amended; and
 - of the Tuberculosis (Deer) Order 1989 (TDO), as amended.
2. The **bold** boxes are mandatory fields. However, if you fully complete **all** the boxes on the form you will not need to complete a separate ATC document.
3. We will use all the information submitted to us in this form, including the information provided voluntarily in the boxes not marked bold, for disease control purposes only. This voluntary information will not be kept for WATO enforcement. However, WATO animal transport certificate rules require transporters: to carry this information (in any format); make it available to an inspector on demand and; keep it for six months after the journey. If a transporter chooses to keep the animal transport certificate information on an ARAMS2, then the transporter should make the ARAMS2 available to the Inspector and a copy may be taken for enforcement purposes.
4. By completing and signing the relevant sections of this movement document you are stating that you understand the following:
 - Failure to include the name of the owner of the animals will mean this document does not meet WATO requirements.
5. This document serves as a **single** movement reporting document. Multiple moves must be completed on separate movement reporting documents.
